SUTTHIPHAT KRIKLIN

FULL-STACK DEVELOPER

✉ sutthiphat.forWork@hotmail.com 📞 082-2645811 ⚙ Jintan29 📍 PHITSANULOK THAILAND

I'm a Full-stack developer with hands-on experience in Full-stack development through internship and capstone projects. Skilled in modern web technologies Passionate about **Backend Development** and **Full-Stack Development** ,embracing new technologies, and overcoming technical challenges

SKILL

Programming languages : Javascript , HTML , CSS , Python , C , Java OOP , C++ (Arduino)
Frontend : React ,Redux, Nuxt3 , Flowbite , Material UI , TailwindCSS , Bootstrap , ChartJS , Recharts
Backend : Node.js , Express.js , Adonis.js , Sequelize ORM , Prisma ORM , PDF-Kit , Messaging API (Line)
Deployment : Vercel , Render

WORK EXPERIENCE

Somsri Garment Co., Ltd. | Full Stack Developer Intern
Technologies : NuxtJS,TailwindCSS , AdonisJS , Prisma ORM , PostgreSQL

1 Apr - 15 JUN

Contributed to the company's ERP system development with a focus on production capacity management:
- Designed and implemented RESTful APIs following MVC architecture with proper validation
- Developed multiple system features including raw material return, goods receiving (GR), and departmental management modules
- Built front-end interfaces using TypeScript, following structured component architecture
- Gained practical experience in database design and management using TablePlus

PROJECT

Capstone Project | React ,TailwindCSS, Express , Sequelize ORM , PostgreSQL
"Comprehensive Data Management and Poverty Reduction Platform" Developed an integrated web-based platform to manage and analyze poverty data across Phitsanulok Province
- Designed and implemented a dynamic SVG-based map visualization system for displaying poverty statistics by district with interactive hover functionality
- Integrated LINE Official Account services using Messaging API and LIFF for household status tracking, featuring customizable Rich Menus and Webhook implementations
- Incorporated GIS capabilities with Longdo Map API for precise household location mapping with interactive information display
- Created automated reporting tools using ExcelJS for data exports and PDF Kit for executive summary reports on assistance activities

Point of Sale (POS) System | React , Bootstrap , Express , Sequelize ORM , PostgreSQL
Developed a comprehensive web-based POS system with merchant and administrative interfaces
- Created merchant dashboard with product management capabilities, including multi-image upload functionality using express-fileupload with primary image selection
- Implemented complete sales cycle management with bill opening/closing, daily sales reporting, and detailed transaction history
- Built real-time inventory tracking system monitoring stock levels and item movement
- Integrated digital receipt generation and printing functionality using PrintJS

EDUCATION

Bachelor of Engineering in Computer Engineering

2021 - 2025

- Naresuan University, Phitsanulok, Thailand
- First Class Honors (GPA: 3.53/4.00)
